ABOUT SCHOOL EMBLEM

The emblem of Gyan Bhavan Howrah School epitomizes the mission, vision and objectives that have been set for this institute. The picture of book in the emblem signifies high quality of education, training and specialized knowledge which GBHS provides in diverse field of education. Displayed on the book is the word "OM" which represents the divine energy or Shakti, and its three main characteristics are creation, preservation and liberation. The feather symbolizes trust, honor, strength, wisdom, power and freedom. It is an object that is deeply revered and a sign of high honor. The three birds indicate purity, elegance, opportunity and victory. The symbol of the sun is an alchemy symbol. It is a symbol of origin that represents the completing of the great work. The sun stands for life, influence and strength.

MESSAGE FROM THE FOUNDER AND PRINCIPAL

“If a plant is carefully nurtured by a gardener, it will become good and produce better fruit. Therefore, children must be given a good training from their earliest childhood.”

I strongly believe, a school is always a ‘world in miniature’ where one receives a ‘training for life’, where effective, meaningful and joyful learning takes place. It is here that we begin to learn our lessons of life- to accept challenges, face competition defeat and failure, and rejoice at victory and triumph. We are committed to providing all our students with the academic knowledge and critical thinking skills needed to succeed in school and beyond.

At GBHS, we provide a learning environment that inspires and motivates children and encourages them to explore limitless possibilities in their quest for knowledge. Since inception, our overarching goal has been to make GBHS a happy school, where teaching is a pleasure and learning is a joy; where learning and excelling is a passion, and culture and values have a pre-eminent place.

Our caring and committed teachers are our pillars of strength. They teach our children not just with their minds but with their hearts. They make learning enjoyable and rewarding and imbibe in children the importance of sound values. Our excellent educational programmers are complemented by state-of-the-art facilities and resources, and our focus on co-curricular opportunities facilitates children's holistic education.

I warmly invite you to explore GBHS as we re-dedicate ourselves every day, to impart the very best education to young minds.

A. Banerjee

Amit Banerjee

ABOUT US

An earnest desire to provide an educational center of excellence to the children of Central Howrah and surroundings resulted in the opening of Gyan Bhavan Howrah School (GBHS) on 21st December 2015. The school is promoted and managed by Gyan Bhavan Public Charitable Trust, known for its commitment for quality education, social welfare and upliftment.

Gyan Bhavan Howrah School is an autonomous, non-profit making, non-governmental organization devoted to the promotion of quality education, research and training. The organization firmly

believes that value-based learning has for greater relevance in a dynamic and ever-changing environment.

We at GBHS strongly believe that child needs love, trust, and faith to blossom into responsible and mature individuals. The school provides a congenial atmosphere to educate the young minds to dream big, aspire, explore, and achieve the impossible. GBH has a team of carefully chosen, highly qualified teachers, who take great pleasure in guiding each student with personal attention and devotion. It's a world where success is a journey rather than a

destination. The programs of GBHS are tuned to the achievements of excellence, quality, self-reliance, collaboration and innovation through sharing and networking. The school firmly believes that learning is a life-long process and hence created a supportive, safe and secure environment that helps in nurturing the love for learning in the child. The school is dedicated to the task of multifaceted personality development in which cognitive, psychomotor and affective domains are well catered.

CHARITABLE WORK

All of us are born for a reason, but all of us don't discover why? Success has nothing to do with what we gain in life or accomplish for ourselves. It is what we do for others, that concept inspires people every day to do better for others. Some are so passionate about helping individuals they decide to make a career out of it. We strongly believe that not every older adult or young child has the good fortune of having family members care for them. We are also aware that some face neglect and often, abuse from family members or those trusted to

care for them. We feel that we can be an advocate for those older adults or children that are neglected or abused. We feel that the master's in social work program would give us the theoretical foundation as well as the intensive training that is necessary to become a good administrator in education field. We have served as a basis for growth and preparation for a life of helping others. Since 2016, in a regular basis Gyan Bhavan Public Charitable Trust is trying to serve the needy, down-trodden children of the society in order to enable them to receive quality education, free medical check-up, food and nutrition guidance. Another remarkable step taken by Gyan_Bhavan Public Charitable Trust is "Daan-Utsav"; through this event thousands of needy students belonging to the weaker segments of different region of the state are going to be supported and served every year. Community service encourages children to understand the challenges faced by the less-privileged and sensitizes them to the importance of being compassionate.

OUR VISION

At Gyan Bhavan Howrah School, we recognize the imperative of imparting an educational experience that is world-class in every respect and which prepares children for global citizenship. We are a school with an Indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of values. We believe that a curriculum of excellence with a global dimension is central to the education of children to face the challenges of the 21st century with confidence and strength of character.

OUR MISSION

At Gyan Bhavan Howrah School, we value merit than affordability and we give importance to every student in bringing out his/her best potential. We are inspired by the immortal lines of Rabindranath Tagore;

"Where the mind is without fear and the head is held high;

Where the knowledge is free,

Where the world has not been broken up into fragments by narrow domestic walls."

Thus, our mission is -

- To develop mental, intellectual and aesthetic faculties of the child through a host of curricular and co-curricular activities.

- Instill a sense of patriotism and community spirit in the students in order to make them worthy and responsible citizens.
- Focus to enrich lives by challenging all students to become successful, lifelong learners.
- Impart student-friendly stress-free and value-based learning experience.
- Make the students understand that formation of good character is the foremost objective of education.
- Foster team spirit and environment consciousness.

OUR MOTTO

***“Asato ma sadgamaya,
Tamaso ma jyotirgamaya”***

*[Lead me from LIE to TRUTH,
Lead me from DARKNESS to LIGHT]*

OUR VALUES AND ATTRIBUTES

Our values and attributes, which align with our guiding statements, are integral to creating a school culture and climate to realize our educational goals.

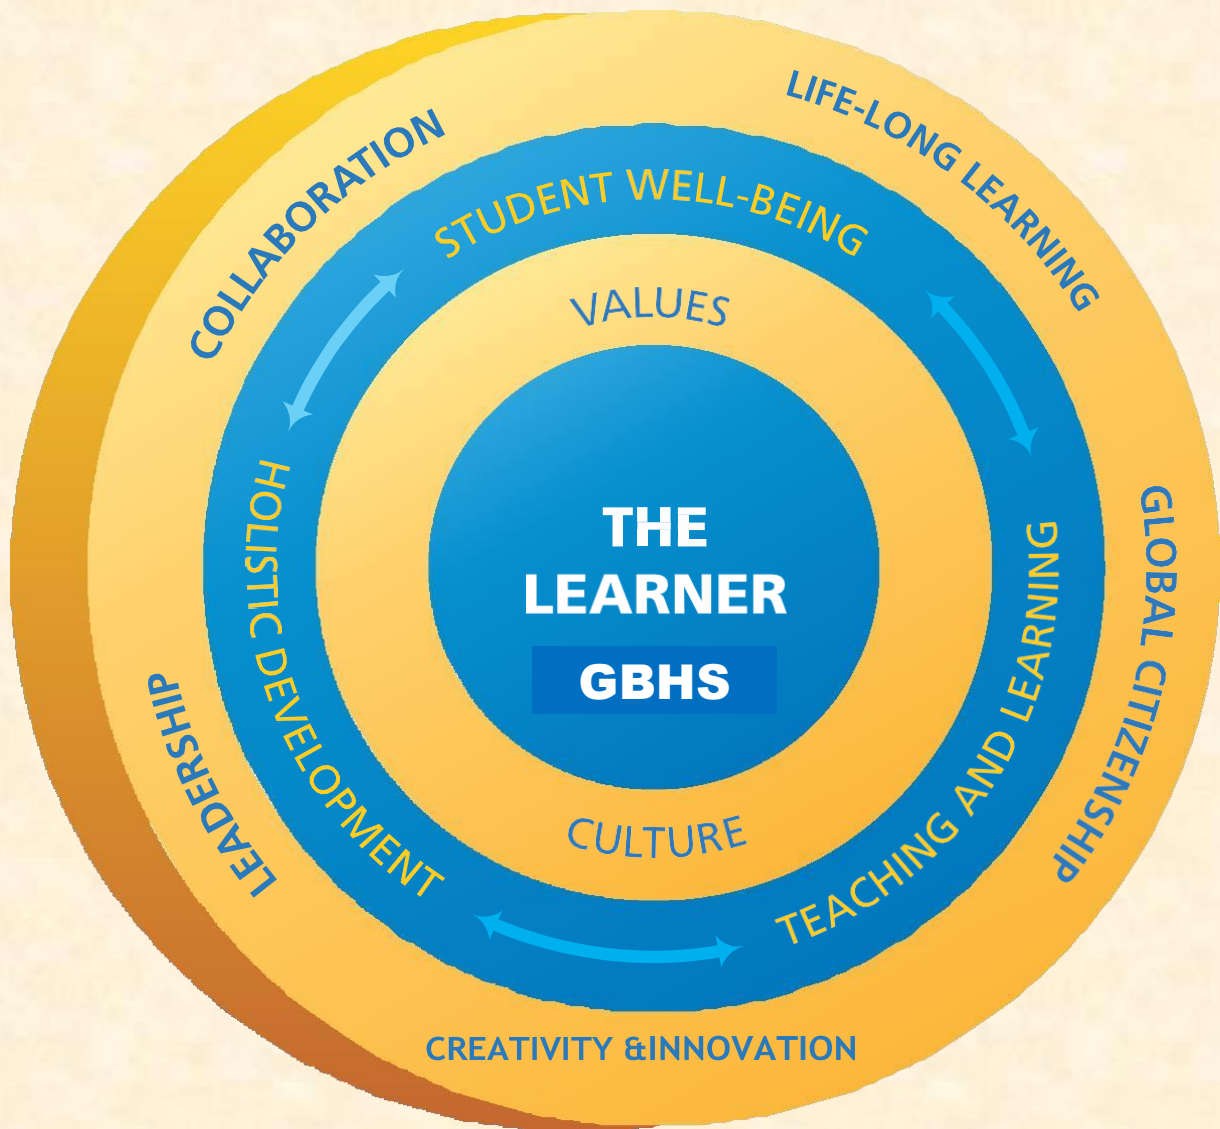

Cleanliness	Compassion	Commitment
Determination	Honesty	Integrity
Perseverance	Respect	Responsibility
Self-Discipline	Teamwork	Trust

WHAT MAKES GBHS TRULY DISTINCTIVE?

- ❖ Combination of Play way and Montessori methods developing motor skills in a conducive method of learning.
- ❖ Best-in-class structure curriculum developed by in-house curriculum development team.
- ❖ Trained teachers who are passionate about teaching as well as nurturing children.
- ❖ Affordable fee-structure.
- ❖ Regular feedback sessions with parents to keep you updated on your child's progress.
- ❖ Healthy student-teacher ratio to ensure that your child gets individual attention.
- ❖ Regular medical check-up program for our school students.
- ❖ Upholds Indian culture and values, whilst fostering global citizenship.
- ❖ Individualized attention to each child to cater to their diverse learning needs.
- ❖ Celebrates a culture of excellence in academics and the all-round development of children.
- ❖ Inclusive education, with a committed team of student care professionals.
- ❖ CCTV surveillance & trained lady attendant.

THE GBHS CURRICULUM MODEL: WHEEL OF LEARNING

At Gyan Bhavan Howrah School the CBSE curriculum is tailored with a multidimensional child centric approach, which is both interactive and pragmatic. Our curriculum, both in terms of content & methodology, is 21st century relevant and meets the highest learning standards.

Comprising a dynamic and colorful potpourri of academics, sports, performing arts, fine arts etc, our curriculum is aimed at developing creativity and exposing kids to varied educational experiences preparing them to face the future challenges of globalized economy. We nurture children to be confident, self-sufficient, have independent thought process and a never-ending urge for learning.

The School's guiding statements underpin the facts that cherishing one's own culture and respecting that of others, as well as values-based learning, are pivotal to holistic education. The educational programs at the School focus on inculcating in the learner five key attributes: creativity and innovation, collaboration, leadership, global citizenship and life-long learning.

ROLE OF CCE

CONTINUOUS AND COMPREHENSIVE EVALUATION

Nurture

Discover, Value and Nurture the individual's area of excellence

Learner

Take responsibility for learning, develop intellectual curiosity and become life-long learners

Thinker

Be a creative, innovative and logical thinker

Communication

Think, Speak and write with precision, clarity and independence

Discipline

Practice self-discipline, be organized and lead a healthy & balanced life

Perseverance

The tenacity to hold on to your aspirations against all odds

Leader

Imbibe strong ethics, rational decision making and leadership with a sense of teamwork

Empathy

Understand others perspective and grow along.

Integrity

Adhering to principles and righteousness

CO-CURRICULAR ACTIVITIES

In our aim to develop love of learning in children that'll last through their lives, we offer a broad curriculum that includes a wide range of extracurricular activities besides academics. Physical and mental development is intended to happen in tandem through different activities like - MIX MARTIAL ARTS, DANCE, YOGA, ART & CRAFT, CHESS AND RECITATION.

Specialized professionals and coaches' mentor the child in all co-curricular activities and ensure that nobody is burdened or overscheduled. Mentors also ensure that activities push kids in the right direction, promote real world experiences, foster friendship, camaraderie, teamwork, healthy competition, build self-esteem etc.

LEARNING METHODOLOGY

We impart education by integrating proven, world-class teaching methods with modern infrastructure and technology. Our curriculum emphasizes on activity-based learning for which we create a suitable environment and focus on learning needs of each child rather than a predetermined set of patterns.

We add further value by inculcating a strong sense of discipline and hard work in our kids; thus, nurturing them to be future ready to face global challenges. The school lays strong emphasis on constructivist approach where the child is encouraged to be the architect of her/his own knowledge and Mentor act as guides rather than instructors.

Learner centric: We give students ample opportunity to explore their interests and cultivate unique strengths. We believe all children should have access to an exceptional, personalized education that enables them to live a happy and successful life.

Learning modalities: A combination of projects, real life exposure, audio-visual presentations, classroom teaching, experiential learning, community visits and brainstorming activities are used to make learning fun, exciting and interesting.

Real World Application: We believe students learn most effectively when they can understand the concepts and more importantly their implementation to the real world. Our goal is to enable students to make meaningful connections and foster curiosity about the world we live in.

Interdisciplinary learning: We encourage interdisciplinary learning and avoid artificial separation between subjects. Encouraging students to learn by doing, we promote a deeper level of understanding. Teaching may originate in the classroom, but will continue trips throughout the community, at home and even on family vacations.

Preparation for life: Following the age-old wisdom that looks at education as preparation for life, students are groomed to become better human beings and not just pass examinations. At GBHS efforts are taken to instill high moral and values along with necessary life skills in young minds.

Competition with Self: A child at GBHS is always competing but not with others, rather this competition is with self. We always emphasize at learning right than learning fast. We do not let a child succumb to competition & rat race pressures, but we at GBHS understand & respect that every child has his own optimal pace to learn. This results in a stress-free environment where a child gets full freedom to grow individually.

HOLISTIC DEVELOPMENT

A holistic approach to teaching and learning is important for the physical, emotional, intellectual creative, spiritual and social well-being of children, and to develop them as well-rounded individuals. At GBHS, we lay emphasis on experiential and exploratory methods of learning, well beyond the classroom, as well as espouse the appreciation and practice of our school's values and attributes.

We constantly ensure that holistic approaches to teaching and learning are achieved in multiple ways - ongoing review of curriculum, introduction of new subjects, the breadth of co-curricular activities, and the regular upgrading of infrastructural facilities and resources.

In the classroom, students present their work by way of presentations, role plays, small skits and impromptu debates.

TEACHING AND LEARNING

At GBHS CBSE (Central Board of Secondary Education) curriculum uses a variety of engaging teaching and learning methodologies that challenge and motivate learners to excel. It focuses on nurturing in them knowledge and skills essential for success in the 21st century. Inquiry-based and application-oriented approaches across all subjects and age groups enable students to learn about and respect a range of ideas, independently and collaboratively with others. It helps them develop new perspectives and take responsibility for their learning.

Our teachers make use of regular classrooms, project-based learning approach, brainstorming, role play, interactive lab experiments and self and peer evaluation, to make learning more engaging and effective.

Our educational programs help students:

- ❖ To develop confidence to work with information and ideas – their own and those of others.
- ❖ To take responsibility for themselves and their actions and be respectful of others.
- ❖ To become reflective learners and be able to identify their ongoing learning needs.
- ❖ To be creative, innovative and fully equipped for future opportunities and challenges.
- ❖ To be articulate, effective communicators, and to express themselves appropriately.
- ❖ To empathize with others and understand and appreciate diversity.
- ❖ To develop as responsible individuals who enjoy a healthy, active and balanced lifestyle.
- ❖ To be engaged citizens, contribute to the community and address global challenges.

The naturally curious minds are exposed to conditions that can evoke freedom of thought and expression. Language development, concept formation, socio emotional skills along with fine and gross motor development happen simultaneously through exploration, interrogation and eventually self- discovery. This can build confident youngsters who feel free to be creative and motivated to learn.

The Pre-Primary School Program encourages inquiry and exploration, and develops children's competence in various skills - reading, writing, listening, speaking, problem-solving, observation, measurement and use of information and communications technology.

The Pre-Primary School curriculum offers an exciting and creative learning environment, with an inter-disciplinary appreciation of Languages, Mathematics, Science and Social Studies, as individual and integrated subjects, while a choice between Hindi and Bengali is offered as the second Language, which helps build a strong foundation in Indian languages. (Applicable for KG only)

The wide range of curricular and co-curricular opportunities offered helps instill in children confidence and discipline. The focus on developing communication skills helps them appreciate the value of education, as it reflects in their ability to express themselves, in addition to developing pragmatic skills.

Dance, Fine Arts, Mix Martial Arts, Yoga, Speech and Drama promote well-rounded development. Students are encouraged to participate in cultural events. Active learning techniques like free play, dramatization, puppetry, singing, dancing and cooking enhance their interest in learning. Book, newspaper and magazine reading activities increase children's awareness of the world. Assemblies, concerts and drama productions help shape their confidence.

PRIMARY SCHOOL PROGRAMME - CLASSES I TO V

The highly developing toddler brain is stimulated through exploratory and hands-on activities, which can develop cognition, language and psychomotor skills. They begin to appreciate the importance of education by remaining interested through the flexible, thought stimulating lessons.

They are made aware of their own potentials and learn how to explore and exploit in the right direction thus moving away from vulnerability to independence.

Subjects offer English, Mathematics, EVS, Science, 2nd Language, G.K, Computer Science + wide range of co-curricular activities.

MIDDLE SCHOOL PROGRAMME - CLASSES VI ONWARDS

The Middle School Programme is structured to meet children's varied intellectual and developmental needs. The curriculum builds on concepts and skills learnt in the Primary School. It ensures progression and continuity across various stages of learning in the school and incorporates continuous evaluation and review of children's performance.

The main aims of the programme are developing skills related to writing, reading, reflecting, critical thinking, public speaking, fostering

initiative among students and a desire to acquire knowledge. Projects, presentations and group activities are more formal, and research based. Inter-house cultural events and competitions encourage healthy team spirit. Students begin to contribute to class assemblies, concerts and drama productions, and take up roles of responsibility. Community service is offered through School- initiated programs and partnerships with NGOs.

WHICH STREAM AND SCHOOL
SHOULD I CHOOSE AFTER MY 10TH?

In a student's life, it's the biggest step and very confusing time because after this, everything is going to change. Each stream has its own benefits, so it is essential to choose the right stream, school and board so that you can't face any trouble in the future.

Arts Stream

This Stream is a good option for those students who are interested in creativity and have a passion to do something in future with languages or any other art subjects. There is one benefit of this stream that if you are creative and love innovations, then surely you can start your own business or go for research work with any subjects from Arts Stream. When the students are not adjusting anywhere can easily be adjusted in the Arts Stream.

Commerce Stream

In this stream, students need dedication and concentration to achieve their desired goals. Chartered Accountancy or MBA is an amazing career option after choosing this stream. These career options can take your life at a fabulous level. In society, these positions are highly respectable and along with this having a fantastic financial pay out.

Science Stream

Before choosing Science stream, the students must be clear about their goals, because this stream has a vast career options. Medical, Engineering are not only the career options of this stream nowadays. Students can choose any field/sector as per their choice after 12th board exams as per their passion and requirements. Students can choose Astro Physics, Molecular Biology, Aviation, Biochemistry, Microbiology, Bio Technology, Forensic Science and many more. Science is one of the most beneficial streams when it comes to career decisions.
